

Spectralink 7202

Durable, Robust, and Feature-rich Handsets

The Spectralink 7202 is designed for long-term dependability and increased in building mobility in specialised working environments. The functionalities of the feature-rich handsets make them a valuable working tool for personnel within industries such as retail, warehouse, elderly care and healthcare. Moreover, the flexible menu structure allows the handset to be customised to specific vertical markets.

With these handsets, employees will benefit from being able to move around the company freely while constantly being accessible.

For the employee on-the-move, battery life is of utmost importance. These handsets use temperature compensated charging, which allows for quick recharging without damaging the batteries, enabling employees to remain productive while mobile.

Benefits

- Customise the handset with third-party applications
- Delivers exceptional voice quality without any background noise, echo, delay, or interruptions
- Resistant to drops and shocks making the handsets more durable
- Allows mobile employees to work more efficiently with extended battery life and quick recharging

Spectralink 7202 Handset

The Spectralink 7202 is a robust, well-designed, feature-rich and price competitive handset. It meets the entry level demands for mobility and is built for long-term dependability.
